

“

This series of videos is of superlative quality and has become a unique resource for many — from those affected by the illness, healthcare professionals and those with family members coping with ME/CFS.”

— ME RESEARCH UK

Dialogues for a neglected illness

A video series exploring the disease known as **ME/CFS** from the perspectives of doctors, researchers, patients, carers, advocates and MPs.

Watch for free: <https://www.dialogues-mecfs.co.uk>

AUDIENCE

For doctors, carers, patients and anyone who cares about someone with ME/CFS.

TOPICS

The new NICE Guidelines for ME/CFS • An introduction to the disease • Activity and energy management • Pacing for severe/very severe patients • Post-exertional malaise • Patient accounts of symptoms • Goodbye, graded exercise therapy • The tangled story of ME/CFS
